

TOWN OF YUCCA VALLEY OFFICIAL MAINTAINED ROAD LIST

There are approximately 150 miles of paved roadways and thirty-five miles of dirt roads within the incorporated limits of yucca Valley.

Available street maintenance funds are limited, making it impossible for the Town to accommodate the many requests received for additional roads in the maintained system.

Dirt roads are considered private and are not maintained by the Town. It is the responsibility of the property owner(s), or through the establishment of a homeowners' association, community service district, or other similar method, to maintain the dirt road(s) in front of, or adjacent to, their property.
